

Introducing the high-tech range of European twines from **UniPak**.

Manufactured in Europe using unique 'hybrid fibrillation' technology, **UniPak** twines offer uniform softness with less abrasion, to ensure smoother running, exceptional knot strength and provide superior performance with outstanding value for money.

The **UniPak** range has a product for every application. Starting at small square twine, right through to big square, high density and ultra high density twines - all colour coded for easy identification.

UniPak has a product for every baling machine, every material, every crop type and every condition.

- ✓ UV Stabilised
- ✓ Excellent Knotting
- ✓ Uniform Twisting
- ✓ Mechanically Fibrillated
- ✓ Manufactured with Advanced Polymers
- ✓ Soft on knotters

Product Label	Runnage / Weight	Length / Knot Strength	Description
MAXI-ULTRA HD <small>2 x 935m X ULTRA HD BIG SQUARE 340kg KNOT STRENGTH</small>	85 Runnage 2 x 11kg Packs	2 x 935m 340kg	UniPak Maxi Ultra HD A specific twine which application suits extreme Ultra High Density baling, such as with the Massey UHD 2370. The High-Vis orange-coloured premium twine delivers an incredible 340kg knot strength to cater for the harsh application that it's intended for. And the extra length of an 11kg spool means fewer changes and more efficient usage. Pallet Qty: 48
BALE MASTER <small>2 x 950m X ULTRA HD BIG SQUARE 320kg EXTREME KNOT STRENGTH</small>	95 Runnage 2 x 10kg Packs	2 x 950m 320kg	UniPak Bale Master Specially formulated twine for Extra Ultra HD applications, such as extreme straw baling in difficult circumstances, Bale Master provides a solution to knot slippage when using extreme density/high speed machines such as Krone and Claas machines. The premium twine is highly visible (orange) and supplies 320kg knot strength. Pallet Qty: 48
WHITE KNIGHT <small>2 x 1000m ULTRA HD BIG SQUARE 300kg KNOT STRENGTH</small>	100 Runnage 2 x 10kg Packs	2 x 1000m 300kg	UniPak White Knight Ultra HD Big Square twine is specially designed for specialist Ultra HD machines and applications. When you're pushing your machines to bale in extreme and challenging conditions, the 300kg knot break strength gives you the back-up you need. The pure white coloured twine is available in 10kg spools, suitable for all machines. Pallet Qty: 48
TERRACOTTA WARRIOR <small>2 x 1050m HIGH DENSITY BIG SQUARE 275kg KNOT STRENGTH</small>	105 Runnage 2 x 10kg Packs	2 x 1050m 300kg	UniPak Terracotta Warrior HD Big Square twine offers a solution for your HD machines. Newly improved and offering a massive 300kg of knot strength, means that the Terracotta Warrior is suitable for the majority of HD applications, and comes in a high visibility terracotta colour. Pallet Qty: 48
GREEN MACHINE <small>2 x 1200m HIGH TECH BIG SQUARE 245kg KNOT STRENGTH</small>	120 Runnage 2 x 10kg Packs	2 x 1200m 245kg	UniPak Green Machine Big Square twine is the biggest selling twine, with high tech performance of 245kg knot break strength. Out of Europe, this popular twine offers strength and good twists per metre, making it a round, uniform and soft twine to secure your bales. Pallet Qty: 48
GOLDEN BOY <small>2 x 1350m EXTRA LENGTH BIG SQUARE 210kg KNOT STRENGTH</small>	135 Runnage 2 x 10kg Packs	2 x 1350m 210kg	UniPak Golden Boy Medium / Big Square twine delivers the efficiency of the 2700m extra length, coupled with 210kg knot strength. Golden Boy is best suited in 3x3 and 4x3 standard (non HD) applications, bringing you the best value-for-dollar twine on the market. The high visibility bright golden coloured twine has the same softness and minimal mechanical wear properties as its big brothers in the UniPak range. Pallet Qty: 48
ORANGE CRUSH <small>2 x 1525m EXTRA THICK SMALL SQUARE 120kg KNOT STRENGTH</small>	242 Runnage 2 x 6.31kg Packs	2 x 1525 m 120kg	UniPak Orange Crush is an extra thick small square twine , designed to cater for easier handling, due to the thicker diameter. This small square twine is easier on your hands as well as a high performance 120kg knot strength capability. Orange Crush is presented in a highly visible colour to aid in operation and identifying when feeding out. Pallet Qty: 80
BLACK PANTHER <small>2 x 2250m SMOOTH GRIP SMALL SQUARE 80kg KNOT STRENGTH</small>	350 Runnage 2 x 6.43kg Packs	2 x 2250m 80 kg	UniPak Black Panther Small Square twine is in a user-friendly 4500m twin pack to give you a compromise of long runnage and strength. Made from high grade polymers, it holds 80kg knots in black. Also suitable for Horticultural Applications. Pallet Qty: 80
BLUE RIBBON <small>2 x 2250m SMOOTH GRIP SMALL SQUARE 80kg KNOT STRENGTH</small>	350 Runnage 2 x 6.43kg Packs	2 x 2250m 80kg	UniPak Blue Ribbon Small Square twine is in a user-friendly 4500m twin pack to give you a compromise of long runnage and strength. Made from high grade polymers, it holds 80kg knots in a high visibility blue. Also suitable for Horticultural Applications. Pallet Qty: 80
